PROFESSIONAL SUMMARY

Results-oriented Full-Stack Developer with over 2 years of experience in building enterprise-grade web applications. Recently completed MSc in Artificial Intelligence at Cardiff University with Merit. Skilled in leveraging AI tools to automate workflows, optimize development processes, and enhance application security. Passionate about building innovative, scalable solutions that combine cutting-edge AI with practical application development.

PROFESSIONAL EXPERIENCE

Software Engineer (Full-Stack Developer)

Apr 2022 - Jun 2024

BrandMuscle India Pvt Ltd (Acquired by Ansira in 2024)

- Managed and optimized MongoDB database operations, developing console applications for efficient data retrieval and reporting, reducing report generation time by 80%
- Developed automation workflows using Power Automate and Azure Data Factory to streamline data fetching and reporting processes
- Enhanced application security by resolving 50+ critical vulnerabilities flagged by SonarQube and Snyk, achieving 100% security compliance score
- Designed, tested, and automated complex business workflows using Camunda and JAMS for reliable execution of critical processes
- Designed and tested complex Stored Procedures in MySQL
- Led application upgrades including Formio, Angular, and .NET frameworks, improving performance and maintainability
- Spearheaded GitHub Copilot integration across the team, training 15 engineers and increasing coding efficiency by 10%
- Enhanced Fund Management Product by designing and developing various Pages and Functionality like Rewards, Bulk Claim Submission and wrote Unit Test cases for every API call and UI component added.

TECHNICAL SKILLS

Frontend:

React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, Angular

Backend:

Node.js, Python, .NET, C#, PHP, Java, SQL, MongoDB, REST APIs

AI and Automation:

Cursor, Claude, ChatGPT, Gemini, Perplexity, Ollama, Pinecone, n8n, Power Automate, Camunda, Selenium

Tools and Platforms:

VS Code, Git, Docker, Kubernetes, Azure, Firebase, Figma, Jira

PROJECTS

OrbBot - AI Chat Widget

React, Next.js, Pinecone, Puter.js

Drop-in AI chat widget for any website featuring Pinecone RAG and zero-config deployment without backend or API keys.

Say Cymraeg - Welsh Language Learning App

Next.js, Ollama, Firebase, Bootstrap

AI-powered Welsh language learning platform with personalized learning paths. Deployed with 500+ active learners and 40% retention improvement.

ForgeFit - AI Fitness Trainer

Next.js, Docker, Node.js, Ollama, MongoDB

Privacy-focused, self-hostable AI training application for dynamic workout plans and fitness progress tracking.

Rakshantara - AI Journaling App

Next.js, Gemini API, Firebase

AI-powered digital journaling app with blog publishing, personal journals, and dream journals enhanced with Gemini AI.

EDUCATION

Master of Science in Artificial Intelligence

2024-2025

Cardiff University, UK

Merit

Bachelor of Engineering in Information Science

2018-2022

Rajeev Institute of Technology (VTU), India

First Class

ACHIEVEMENTS

- 2nd Runner-up at Cardiff University AI Hackathon with AMPLYFI
- Resolved 50+ critical vulnerabilities, achieving 100% security compliance
- Led GitHub Copilot adoption for 15+ engineers with documented 10% velocity increase
- Delivered workshops on Web Development, Python, QA Testing, and Generative AI
- Part of the core Technical Team and GLUG during Bachelor's
